

TECHRECRUITERS JOINS NISSEN STAFFING CONTINUUM, INC.

NSC broadens base of business by joining forces with fifteen-year-old technical staffing firm, TechRecruiters, which is focused on Engineering, Technical, and IT.

WAUKESHA, WI – JUNE 19, 2017 – Nissen Staffing Continuum, a leading staffing agency in Southeastern Wisconsin, is pleased to announce that it has added TechRecruiters to its award-winning roster of human capital staffing, placement and managed personnel services.

TechRecruiters is honored to be part of the NSC family and is enthused to join forces with such an outstanding company. With a combined 35 years of successful industry experience, both companies are now able to offer their clients the highest level of quality, and 'one stop' staffing service experience. With its strong technical acumen, TechRecruiters adds 15+ years of success along with an excellent record of client satisfaction.

Nissen Staffing Continuum has maintained a broad client base through industry segmentation and a continued focus on quality and service for their clients and associates. TechRecruiters' philosophy closely aligns with that of NSC: maintaining a high level of integrity, honesty and versatility while working in the best interest of its customers. This joint effort will result in having the capability to provide customers with a wider talent pool than ever before. With many companies running "leaner and meaner," coupled with a "high demand – low supply marketplace," this partnership gives the combined firms the opportunity to be a benefit to clients for more of their quality hiring needs.

"Together, we're thrilled to offer many levels of staffing options to our new and existing clients. TechRecruiters will allow us to keep a keen focus on attracting and providing the very best technical talent available. The business needs of our customers are increasingly sophisticated, industry- and market-specific, and require a disciplined and focused approach to be successful," Nissen Staffing Continuum's President and CEO, Scott Nissen said.

About Nissen Staffing Continuum (BEST OF STAFFING – CUSTOMER SATISFACTION)

Established in 1997, [Nissen Staffing Continuum](#) has consistently focused on helping businesses grow their organization's most precious asset: their people. They understand that to succeed in a fragile economy, or thrive in a strong one, organizations require a staff that is flexible, innovative and dependable. Nissen Staffing Continuum offers many solutions for all of your staffing challenges, from sourcing temporary help required to meet a tight project deadline, to finding capable contract-to-hire personnel, to recruiting a technical professional with the right background, qualifications and cultural fit. Nissen Staffing Continuum also offers personalized, on-site partnerships to meet the ever-changing needs of businesses that rely on a flexible workforce to meet their customer needs. A multiple winner of the prestigious 'Best of Staffing – Client Satisfaction' award, Nissen Staffing Continuum values partnerships and, as they always say, "It's not who you know alone, it's who we know together."
